sour cream. Mix it with some Ranch Dressing and it's a great sandwich spread. When making pizza at home use it as the sauce. Put it on a Beef Sandwich. Mix it with sour cream for a fabulous Tomato Basil Dip. We'd like to know what you do with our Bruschetta. Email us your favorite idea and receive 20 Royalty Points.

BUILD EXERCISE INTO YOUR DAY WITH INSTANT RECESS

Don't have time to exercise? It's a common excuse. Setting aside half an hour every day can seem daunting—so how about “instant recess?” It's the title of a book by Dr. Toni Yancey, a professor of health services at the University of California, Los Angeles, and also a strategy for getting some serious exercise every day.

The idea is simple: At least twice a day, devote 10 minutes to some physical activity. Take a brisk walk, do some mild aerobic exercise, dance, or lift weights—anything that gets your blood pumping a bit.

Three 10-minute exercise breaks add up to 30 minutes of exercise a day, which is the amount that doctors usually recommend for a healthy lifestyle. You'll feel better physically and emotionally, and you'll probably find yourself looking forward to “instant recess” throughout your day.

Tax Day, Why April 15th?

The deadline for filing U.S. income tax returns hasn't always been April 15th. When the 16th Amendment to the Constitution was adopted in 1913, enabling Congress to levy the tax, lawmakers specified March 1st as the filing deadline. In 1918, Congress moved the date forward to March 15th, although why is not clear. Finally, in 1955, the date was pushed forward a month, to April 15th. Why? Officially, the IRS said it was to allow more time for processing returns. But some cynics claim it also allowed the government to hold on to taxpayers' money for an extra month before issuing refunds.
