Ask Your Wife Out On A Romantic Date

If you want to romance your wife, think about how you won her heart in the first place. Your romantic relationship may have started out when you called her and asked her out on a romantic date. When you went out for the first time, you were sweet, romantic and you tried hard to impress her. She apparently enjoyed your loving attention, because she ended up marrying you. If you want to romance your wife, it is time to start dating her again. After you've decided on the plans for your romantic date, call her several days in advance and ask her out. When you call her, act like you are asking her out for a first date.
