Thank You For The Kind Words . . .

We tried the date night special and found it to be a good buy and very enjoyable. We will be back in on Wednesday very soon. Paul Tomaskovic

Our server was cheerful and very attentive and responsive to our needs. The food was prepared beautifully and was delicious, from the warm bread and bruschetta through the excellent grilled salmon to the tasty desserts. Douglas Asbury

Traveling to and from School

1. Plan a walking route to school or the bus stop. Choose the most direct way with the fewest street crossings and, if possible, with intersections that have crossing guards.
2. Walk the route with your child beforehand. Tell him or her to stay away from parks, vacant lots, fields and other places where there aren't many people around.
3. Teach your child never to talk to strangers or accept rides or gifts from strangers. Remember, a stranger is anyone you or your children don't know well or don't trust.
4. Be sure your child walks to and from school with a sibling, friend, or neighbor.
5. Teach your kids — whether walking, biking, or riding the bus to school — to obey all traffic signals, signs and traffic officers. Remind them to be extra careful in bad weather.
6. When driving kids, deliver and pick them up as close to the school as possible. Don't leave until they are in the schoolyard or building
7. Teach children to arrive at the bus stop early, stay out of the street, wait for the bus to come to a complete stop before approaching the street, watch for cars and avoid the driver's blind spot.
8. Remind your children to stay seated at all times and keep their heads and arms inside the bus while riding. When exiting the bus, children should wait until the bus comes to a complete stop, exit from the front using the handrail to avoid falls and cross the street at least 10 feet (or 10 giant steps) in front of the bus.
9. Tell your child not to bend down in front of the bus to tie shoes or pick up objects, as the driver may not see him before starting to move.
10. Be sure that your child knows his or her home phone number and address, your work number, the number of another trusted adult and how to call 911 for emergencies.

Back to School.... Don't Overload Yourself

BACKPACK SAFETY

- Choose a backpack with wide, padded shoulder straps and a padded back.
- Pack light. Organize the backpack to use all of its compartments. Pack heavier items closest to the center of the back. The backpack should never weigh more than 10 to 20 percent of the student's body weight.
- Always use both shoulder straps. Slings a backpack over one shoulder can strain muscles. Wearing a backpack on one shoulder may also increase curvature of the spine.
- Consider a rolling backpack. This type of backpack may be a good choice for students who must tote a heavy load. Remember that rolling backpacks still must be carried up stairs, and they may be difficult to roll in snow.
